I am a driven software engineer with a passion for learning and creating. My experience in customer service can be translated into a passion for solving problems and providing solutions for others. I am meticulous and boldly face new intellectual challenges. I am always willing to learn new tools and skills to enhance my team. With my determination, empathy, and curiosity, I am constantly honing my strengths and learning my deficiencies.

EXPERIENCE

Dec 2021 - March 2022

Software Engineering Immersive Fellow

General Assembly

Successfully completed 500+ hours of expert led instruction in software engineering and web development concepts, practical use-case, and industry best practices. Courses: HTML5, CSS3, JavaScript, Git, Node.js/Express, jQuery, Python3/Django, ReactJS, and more.

Oct 2018 - Dec 2020

Branch Banker

Truist Financial

Debugged money-counter machine when malfunctions occurred. Used an internal database to pull reports for cash management. Used multiple software programs to complete daily transactions. Setup new devices when we switched over to other systems.

Oct 2014 - April 2018

Key Holder

Lou & Grey

Taught people how to use a POS system. Used an internal database to pull reports for daily sales and management duties. Debugged POS systems when malfunctions occurred. Learned and taught new mobile-sales software programs.
